Title: Adornment and Method of Making Adornment

Priority: U.S. Appln. No. 60/391,286, filed June 24, 2002

Attorney Docket No. 672.001

**PETITION TO ISSUE A FILING RECEIPT AND ASSIGN A SERIAL NUMBER**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22131-1450

Dear Sir:

The Applicant, now Petitioner, has not received a Filing Receipt for the above-referenced U.S. Nonprovisional Patent Application, despite having deposited it with the United States Postal Service via Express Mail service on June 24, 2003. It has been almost 11 months since the application was submitted in this matter and the Petitioner respectfully requests that a Filing Receipt be issued and a Serial Number be assigned so that the Petitioner can be sure the nonprovisional application has been properly processed, can review and revise any defects in the filing receipt, and can properly refer to the nonprovisional application in any future correspondence.

The Petitioner submitted Applicant's nonprovisional application under 37 C.F.R. § 1.10 by depositing it with the United States Postal Service in "Express Mail Post Office to Addressee" on June 24, 2003. This is evidenced by the transmittal letter of the undersigned, a true copy of which is shown at Appendix A. As can be seen, the transmittal letter bears Express Mail No. EV 313038524 US, as well as a Certification Under 37 C.F.R. § 1.10 signed by David D. Stein. A true copy of the customer copy of the Express Mail mailing label showing that the application was indeed accepted by the United States Postal Service at 9:18 pm on June 24, 2003 is attached hereto at Appendix B. A self-addressed stamped return postcard accompanied the nonprovisional application, as is evidenced by a true copy of the postcard attached at Appendix

C. An additional statement by David D. Stein attesting to his personal knowledge of the deposit is attached at Appendix D. A true copy of the nonprovisional application as originally filed is attached at Appendix E.

This petition is being submitted at this time because Applicant's earlier Request For Filing Receipt for the nonprovisional patent application was unsuccessful as the U.S. Patent Office instead mailed Applicant's representative, the undersigned, a Replacement Filing Receipt for the earlier filed provisional application serial no. 60/391,286 from which the nonprovisional application claims priority. A copy of Applicant's Request For Filing Receipt, dated January 21, 2004 and a copy of the Replacement Filing Receipt, mailed April 14, 2004, are both attached hereto at Appendix F.

In light of the foregoing, Petitioner hereby requests that Applicant's nonprovisional application be given a June 24, 2003 filing date and that a serial number be assigned to the application. The Petitioner also requests that the Office of Initial Examination issue a filing receipt stating the same.

No fees are believed to be payable with this communication. Nevertheless, should the Office consider any other fees necessary in conjunction with this or any future communications, the Director is authorized to direct payment of such fees from Deposit Account No. 50-1170.

Respectfully submitted,

David D. Stein
